# THE PROPORTIONALITY OF THE PEACE OF WESTPHALIA

## AN AXIOM BUSTER FOR THE NEW YEAR

The essential purpose of the Peace of Westphalia is to establish a new political principle of world development based on the **ADVANTAGE OF THE OTHER**. If that principle is not established strongly among the belligerents of a conflict, war will start again at the first opportunity. The Peace of Westphalia is the only means to put an end to imperial geopolitics. However, the idea of giving the **ADVANTAGE TO OTHERS** is not for the purpose of making other people equal to you, but for the purpose of making them better than you.

How does the process of the Peace of Westphalia work? It works by recreating the ordering principle of harmonic proportionality that Gottfried Leibniz had established between reason and power. The process is the same as the proportionality required for doubling the volume of the cube underlying the construction of the Great Pyramid of Egypt: A First is to a Second as a Second is to a Third in the same proportion as a Third is to a Fourth. The LaRouche anti-entropic changing proportion of growth is as follows:

$$\mathbf{AB : AM :: AM : AP :: AP : AC}$$

Once you have properly internalized this relationship of progress and applied it to the daily lives of real people around you, you will have begun to change history by eliminating the animalistic imperial principle of war and you will have discovered the proportionality of the win-win principle of Lyndon LaRouche and Xi Jinping's new world order.

On the other hand the opposite British Imperial principle is based on the inversion of that humanist principle; that is, its purpose is to **TAKE ADVANTAGE OF THE OTHER**. Such a principle of British free trade is always

disproportional, for instance, the lies of Elizabeth II you may have heard on television recently:

## **Queen Elizabeth goes viral for urging 'generosity and self-sacrifice' in front of an ornate gold piano**

"Even the power of faith, which frequently inspires great generosity and self-sacrifice, can fall victim to tribalism. But through the many changes I have seen over the years: faith, family and friendship have been not only a constant for me, but a source of personal comfort and reassurance." Elizabeth II, 2018/12/26.
