Athena

The Nine
Muses

Dioskouroi

Heracles

Hermes
[Mercury]

Dionysus
or Bacchus

Aphrodite*
Eros

Clothe
Lachesis
Atropos

Apollo **Artemis**

*There are two Aphrodite: one is the goddess of love of ideas, fecundated by the creative process of cosmic radiation, the other is the goddess of physical love, fecundated by Zeus. All the gods of Olympus are indicated in **bold black**. All the gods in **bold red** relate to the epistemological state of mind of astronavigation.
